Worcester Feb. 11 1850  
Friend Garrison:

Would it not  
be well to send a copy of the  
"Liberator" to every person specially  
alluded to in its columns?

For example I called the attention  
of G. A. Sheridan to the existence of  
a paragraph in the "Liberator" a  
short time since and I see he  
has inserted an explanatory  
letter - If I had not done this  
I doubt if he would have seen  
it at all or known of its existence  
& so would have had no oppor-  
tunity to explain -

So of other cases: The furthest  
play is the best policy Keep people  
thinking and talking on the  
subject: make them aware  
of the facts: It does not

Matter so much for the general  
& ultimate interest of the cause  
what side a man takes as that  
he be made thoughtful enough  
to take some side.

I was at the meeting  
referred to and I must say  
Mr. Sheridan was understood to  
take quite different ground from  
that claimed in his letter of  
Explanation. He may not  
have meant it, may not  
have even been conscious of it  
perhaps - his flow of words is con-  
siderable - but if not he was  
singularly unfortunate in  
making himself understood.

For ex. he said the Con-  
stitution made the Negro equal to  
three fifths of a man and he thought  
that estimate about right

Addressing a Colored man  
in answer to some remark  
which I did not hear he said  
"I have seen as fine fellows as  
you slaves & hope I shall  
again"

He said that Northern men  
ought & would go south to  
shoot the negroes in case  
of insurrection and their  
wives and sisters here  
would cheer them on  
in the work.

Of course I do not write  
this for publication -

I presume the whole  
subject may as well drop  
- perhaps the writer of the  
paragraph wh. called out his  
letter (who is unknown to me)  
may make a statement

of the fact.

Yrs. Truly for  
freedom for both Slaves  
and Masters

A. P. Brown
